Name: krupesh patel
Batch :T21
Roll No : 81

Assignment : 15

Code:

Server.js

```javascript
const http = require('http');
const fs = require('fs');
const port = 3000
const server = http.createServer(function (req,res) {
    if (req.url === "/" ) {
        fs.readFile("file.txt", "utf-8", function (err,resp) {
            if(err) {
                res.writeHead(404);
                res.write("file could not be read");
            } else {
                res.writeHead(200, {"Content-Type" : "text/plain"});
                res.write(resp);
            }
        res.end();
     });
    } else {
        res.end("file could be found");
    }
});

server.listen(port, function(error) {
    if(error) {
        console.log("Something went wrong!", error)
    } else {
        console.log("Server is listening on port: " + port)
    }
})
```
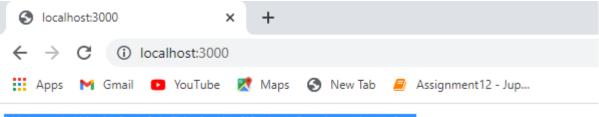

File.txt

```
hii krupesh this is last lab.This is the file text.I am krupesh patel .
```

Output:
